

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	09 September 2026
Team ID	SWUID2026190415
Project Name	Medical Diagnosis Center by Service Portal (ServiceNow)
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Patient Registration	Registration through Form Registration through Gmail Registration through LinkedIN
FR-2	Patient Login & Profile	Confirmation via Email Confirmation via OTP
FR-3	Diagnostic Test Management	Display available diagnostic tests. Show category, duration, and price. Maintain active/inactive tests.
FR-4	Appointment Booking	Book diagnostic test. Select appointment date and time slot. Store booking in Appointment Table.
FR-5	Slot Validation & Availability	Check available time slots. Prevent duplicate appointments. Apply booking limits and cut-off rules.
FR-6	Approval Workflow	Send special test requests for Lab Manager approval. Update approval status automatically.
FR-7	Appointment Status Tracking	Update status: Requested → Confirmed → Sample Collected → Processing → Completed → Report Available → Cancelled.
FR-8	Report Management	Upload diagnostic reports. View and download reports through Service Portal.
FR-9	Payment Management	Calculate test fee automatically. Track payment status (Pending, Paid, Failed, Refunded). Generate digital invoice.
FR-10	Email Notifications	Booking confirmation email. Approval/Rejection email. Payment confirmation email. Report availability email.
FR-11	Role-Based Access Control	Patient role. Receptionist role. Lab Technician role. Lab Manager role. Administrator role.

FR-12	Admin Dashboard	View appointments. Monitor reports and payments. Track daily diagnostic activities.
-------	-----------------	---

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The Service Portal should be simple and easy for patients and hospital staff to use.
NFR-2	Security	Protect patient information using role-based access control and secure login.
NFR-3	Reliability	The system should correctly manage appointments, reports, and payments without data loss.
NFR-4	Performance	Appointment booking and report access should load quickly with minimal waiting time.
NFR-5	Availability	The Medical Diagnosis Center portal should be available whenever users need to access it.
NFR-6	Scalability	The application should support more patients, tests, appointments, and reports as the diagnosis center grows.
NFR-7	Maintainability	New diagnostic tests, workflows, and fields can be added easily in ServiceNow.
NFR-8	Auditability	All appointment, approval, payment, and report activities should be tracked for compliance.
