| Project Name  | Medical Diagnosis Center by Service Portal (ServiceNow) |
| Maximum Marks | 10 Marks                                                |

**Model Performance Testing:**

Project team shall fill the following information in model performance testing template.

| S.No. | Parameter                   | Screenshot / Values                                                                                                                                                                                                                                                                                                                                    |
|-------|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.    | Data Rendered               | The dashboard displays real-time information from ServiceNow custom tables.<br>Data displayed: <ul style="list-style-type: none"><li>• Total Diagnostic Tests Available.</li><li>• Total Appointments.</li><li>• Completed Reports.</li><li>• Pending Reports.</li><li>• Payment Status.</li><li>• Available Test Categories.</li></ul>                |
| 2.    | Data Preprocessing          | Data is collected from custom ServiceNow tables and validated before displaying.<br>Preprocessing includes: <ul style="list-style-type: none"><li>• Mandatory field validation.</li><li>• Appointment status updates.</li><li>• Duplicate booking validation.</li><li>• Payment status validation.</li><li>• Report availability validation.</li></ul> |
| 3.    | Utilization of Data Filters | Dashboard filters help users quickly find information.<br>Filters used: <ul style="list-style-type: none"><li>• Test Category (Blood Test, MRI, CT Scan, etc.).</li><li>• Appointment Status.</li><li>• Report Status.</li><li>• Date Filter.</li><li>• Search by Test Name.</li></ul>                                                                 |
| 4.    | DAX Queries Used            | Not Applicable (N/A).<br>This project uses ServiceNow Reports and Dashboard Widgets instead of Power BI DAX queries.                                                                                                                                                                                                                                   |
| 5.    | Dashboard design            | Number of Dashboard Widgets / Visualizations: 6<br>Widgets include: <ul style="list-style-type: none"><li>• Total Tests.</li></ul>                                                                                                                                                                                                                     |

|   |               |                                                                                                                                                                                                                                                                                        |
|---|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   |               | <ul style="list-style-type: none"> <li>• My Bookings.</li> <li>• My Reports.</li> <li>• Pending Reports.</li> <li>• Completed Reports.</li> <li>• Payment Summary.</li> </ul>                                                                                                          |
| 6 | Report Design | <p>Number of Report Visualizations: 5</p> <p>Reports include:</p> <ul style="list-style-type: none"> <li>• Appointment Status Report.</li> <li>• Diagnostic Test Report.</li> <li>• Patient Report.</li> <li>• Payment Status Report.</li> <li>• Laboratory Report Summary.</li> </ul> |
